

13.9 User Preferences - Startup File

Startup File.....1

Restoring to Factory Settings.....1

Startup File

Reference
Mode: All modes
Menu: File ▶ Save Startup File
Hotkey: Ctrl-U

When you start Blender or start a new project with the menu entry File ▶ New, a new scene is created from the default scene included with Blender.

This default scene can instead be your own customized setup.

To change the default scene, make all of the desired changes to the current scene or current file and File ▶ Save Startup File.

Restoring to Factory Settings

Reference
Mode: All modes
Menu: File ▶ Load factory Settings

To restore the startup file to the factory settings, open File ▶ Load Factory Settings. This will restore the *Startup File* and *User Preferences* back to the original factory settings. After this you can save the startup file to overwrite any customizations permanently.

Note
User Preferences Window
For more information about the Editor Window for User Preferences or how to clean your preferences manually, see <i>User Preferences</i>
